PROJECTS

Partydox - partydox.now.sh

React | Redux | NodeJS | PostgreSQL | Express | JS | CSS | HTML

Full stack web app where friends plan trips together. Users are allowed to create trips with activities, shopping-lists, flights, and parking lots for an optimal trip experience.

- Built and Deployed Full Stack Web App
- Applied JSON web token for credential authentication
- Wrote API calls, endpoints, and routes to facilitate communication between react front end and node back end

Lindy's Local - lindyslocalpest.com

React | JS | HTML | CSS | LESS

Customer facing marketing page for Lindy's Local Pest Control Business.

- Collaborated 1 on 1 with stakeholder to meet customer needs and follow design specs
- Spearheaded design, implementation, and deployment of entire company website
- Enforced responsive design for whole SPA

Block Club - blockclubcalendar.now.sh

React | Formik | JS | Material UI | Vercel

Detroit, MI, non profit event planning web platform where users can register and login to view and add community events happening near them.

- Collaborated with 5 full stack team members during a 1 week sprint
- Implemented login and registering features in front end code base
- Lead product vision by presenting figma and whimsical Design spec options during planning phase of sprint

EXPERIENCE

Team Lead, Remote - Lambda School

January 2020 - May 2020

- Mentored 9 students in full time contracted position.
- Taught students from different backgrounds how to code efficiently and professionally
- Identified struggling students and spearheaded efforts to assist them; resulting in all 9 students passing unit exams
- Led students in daily 1 : 1 meetings and standups over zoom whilst tracking student progress

DCFS, Nephi, UT - CPS Caseworker

December 2018- July 2019

- Created court documentation for high case load in accord with state standards
- Orchestrated child and family team meetings to increase family communication and safety
- Advocated for children who had been abused and de-escalated high stress situations
- Performed forensic interviews to investigate abuse allegations
