EDUCATION

Lambda School, Remote— *Seeking Endorsement*

June 2019 - PRESENT

Full Stack Software Engineer training from front end to the backend in a team driven environment focused on experiential learning.

Brigham Young University, Provo, UT— *B.S. Psychology*

August 2012 - April 2018

Understood and applied basic research methods in psychological writing and projects; including data analysis and interpretation, research design and implementation, and in applying psychometric methods in an ethical and professional manner.

EXPERIENCE

DCFS, Nephi, UT— *Child Welfare Caseworker*

December 2018- July 2019

Performed child protective services including child forensic interviews after alleged sexual/physical/emotional abuse was made known to CPS. Worked collaboratively with law enforcement, school systems, and community to end child abuse and teach families and individuals skills necessary to live mentally stable lives.
