EDUCATION

Lambda School, Remote— *Seeking Endorsement*

June 2019 - PRESENT

Full Stack Software Engineer training from front end to the backend in a team driven environment focused on experiential learning.

Brigham Young University, Provo, UT— *B.S. Psychology*

August 2012 - April 2018

Understood and applied basic research methods in psychological writing and projects; including data analysis and interpretation, research design and implementation, and in applying psychometric methods in an ethical and professional manner.

EXPERIENCE

DCFS, Nephi, UT— *Child Welfare Caseworker*

December 2018- July 2019

Maintained court documentation in standard with state regulation. Facilitated child and family team meetings; empowered family members to connect, and advocated for children in need and who had been abused.

PROJECTS

Block Club Calendar— *Junior React Dev*

October 2019-- https://blockclubcalendar.now.sh/

Created react components, specifically a date picker and login form. Implemented Material UI and used Web Hooks to manage apps state.

Second Chance— *Senior React Dev*

November 2019-- https://second-chance.now.sh/

Created CRUD functionality to interface with web API and access resources from database asynchronously.

Celebrity Dead or Alive— *UI Dev*

September 2019

Created User interface for landing page for website platform and used CSS, Flexbox and semantic HTML.
